25 March 2008

On 25th August 2006 Team Alpine embarked on a two-week journey from Vancouver, British Columbia to St. John's, Newfoundland, in a classic 1967 Sunbeam Alpine V, to compete in the world-class Tarmac Rally, Targa Newfoundland. That year success was measured on many levels: driving 9,900 km, racing and finishing Targa and most significantly raising \$15,500 for children's charities. Currently, plans are underway for the 2009 Targa Newfoundland race and fundraising season. This project will encompass twenty-four months of preparations, promotions and fundraising. We are seeking sponsorship support to ensure another successful season.

Our primary goal is to raise funds for the British Columbia Children's Hospital Foundation. "The Hospital is a world-class pediatric academic health science centre providing care to over one million children in B.C. Almost daily, amazing new discoveries come out of the hospital and its research institute – discoveries that have the potential to improve the health of children everywhere; discoveries that help sick and injured children today and tomorrow. The key to providing the best child health is being able to solve the many unanswered questions about the onset and cause of childhood diseases. We tend to share our successes more than our needs. Yet our needs are great and our needs are urgent! Your contributions are absolutely vital."

Secondly, in 2006 sponsorship support was paramount to our success and the experience was essential in establishing the foundation to continue racing for children's charities. Once again, we seek sponsorship support to facilitate operating costs including entry fee, transportation, lodging, fuel, parts, supplies, insurance and applicable taxes. Our budget is \$14,000 and we require a minimum of \$6,500 by December 2008 to cover Targa entry and sundry fees. We welcome in-kind product donations.

The accomplishment of 2006 has prompted the preparation for the 2009 Targa Newfoundland, September 12th-19th. The selected vehicle is a 1964 Sunbeam Alpine IV- GT (SRS-GTR). A ground up, purpose built, rally car. 2009 will commemorate the 50th anniversary since the introduction of the Sunbeam Alpine series. Targa Newfoundland is a weeklong tarmac rally competition, in stages, along a 2,200 km route through the eastern and central parts of the Province. This event is a great opportunity to compete with some of the best rally racers and establish a partnership with their respected teams. It offers an exceptional opportunity to interact with people from various communities and provides children the chance to get up-close to these unique race vehicles and their teams.

Sunbeam Canada's Team Alpine is an excellent public relations opportunity offering low-cost advertising to sponsors. As a community oriented group dedicated to children's charities, this project is a positive endeavor providing an opportunity for sponsors to be part of our Team. Our success lies with your generous support.

Respectfully,

Ohan Korlikian
Driver: Sunbeam Canada - Team Alpine

PS. In spring 2011, Ohan will undertake his third phase of fundraising for Children's charities by driving his Sunbeam Alpine from Vancouver, Canada to Beirut, Lebanon. Details on website.

"Sunbeam Canada is a community oriented group proudly offering free support to the hobbyist, exchanging information and resources with the aim of restoring and preserving classic Rootes British automobiles for future generations while maintaining an ongoing commitment to children's charities"
